# **INTERNATIONAL B.V.**

### **Giovenzana International B.V.**

Strawinskylaan 1427 | 1077 XX Amsterdam | The Netherlands

## About Us

With decades of expertise, Giovenzana has become a global leader in safety components for industrial applications. The company has grown through continuous innovation, expanding its product range to meet changing market needs. Today, Giovenzana operates worldwide, committed to quality, safety, and customer satisfaction.

## Marketing

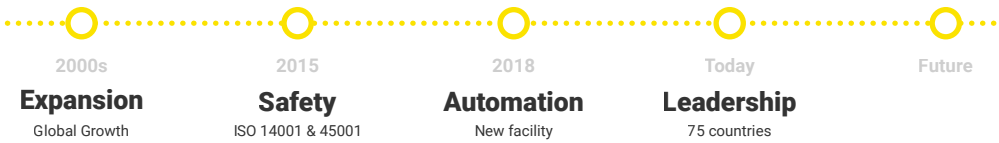

Giovenzana operates in 75 countries, providing components that meet international standards. With a global sales network and an updated website, the company ensures expert customer support for informed product choices.

## Production

The solutions offered by Giovenzana derive from a wide knowledge of the needs of industrial electrical devices and are in line with the major international industry standards. Since 1952 Giovenzana has been creating, designing and implementing security solutions to meet the needs of its customers within its business areas.

## Mission

Giovenzana is committed to creating high-quality safety solutions, recognized worldwide for their reliability and performance. Focused on sustainability and energy efficiency, the company designs ergonomic, intuitive devices, aiming to be a trusted partner for its customers by building strong and direct relationships.

## Quality and Sustainability

Giovenzana combines development, design, and production to create innovative, high-quality products. With a strong focus on safety, the company continuously refines its solutions to ensure reliability and effectiveness. Certified under ISO 9001:2015 and ISO 14001:2015, Giovenzana guarantees strict quality control and promotes environmental sustainability. By adopting advanced technologies, the company reduces waste, lowers emissions, and uses resources more efficiently, all while delivering top-notch products to its customers.

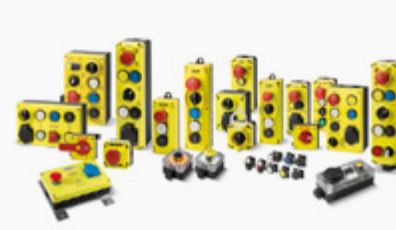

### Industrial Automation

The experience gained allows us to meet diverse automation needs. We manufacture cam switches (12-200A), switch disconnectors (32-160A), auxiliary controls, limit switches, foot switches, and micro switches, using innovative solutions and high-quality materials to ensure exceptional reliability.

### Handling System

Today Giovenzana is an established reality of the business of handling system solutions. The range includes single and double row pendant control stations up to 14 buttons for control and direct switching, position and rotary gear limit switches, slip rings, warning horns, energy transmission lines.

### Elevators and Escalators

For over 65 years, Giovenzana has been a global leader in innovative elevator electrical components. We specialize in supplying high-quality, reliable, and durable products such as car top inspection boxes, emergency stop stations, limit switches, and advanced shaft lighting components.

### ATEX and IECEx

Giovenzana has obtained important ATEX and IECEx certifications for the potentially explosive atmospheres. This new range includes components and equipment for hazardous areas: switch disconnectors, cam switches, enclosures, rotary gear limit switches, micro switches, and festoon systems.
