SMART SENSOR FOR INDUSTRIAL LIVE MONITORING

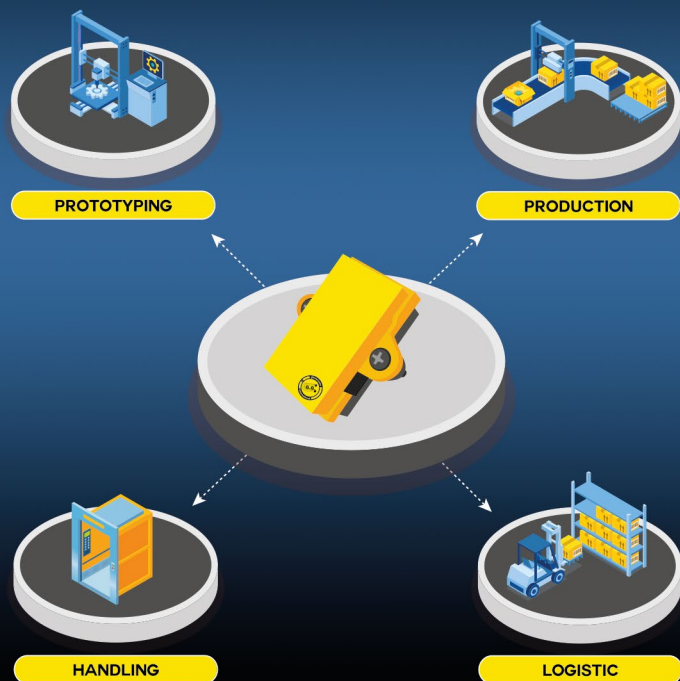

SMART SENSOR FOR INDUSTRIAL LIVE MONITORING

OBJECTIVES

- Real-time production system monitoring and periodic statistics generation.
- A single device capable of monitoring heterogeneous machines and infrastructure.
- Connected devices easy-to-install without the need for wired network connections.
- Synoptic available from different devices: Monitor, PC, Smartphone, ...
- Riduzione dei costi.

OBIETTIVI

- Monitoraggio del sistema di produzione in tempo reale e generazione di statistiche periodiche.
- Un unico dispositivo in grado di monitorare macchine ed infrastrutture eterogenee.
- Dispositivi connessi semplici da installare senza necessità di connessioni di rete cablate.
- Sinottico consultabile da diversi dispositivi: Monitor, PC, Smartphone, ...
- Costi reduction.
